

Halia

Designed by Studio Kairos

By EFTCG

NORDIC
FURNITURE
C O N T R A C T

Halia, designed by Studio Kairos, is the broad chair series of NORDIC FURNITURE CONTRACT that has been developed within the 'Open Work' theme highlighted by NORDIC FURNITURE CONTRACT for contemporary work spaces. This new product family stands out with its unique form and structure, which is inspired by wings of fairies. Halia is available in different fabric and leather seating options, whilst legs are available in chrome plating. High and low back alternatives enable it to be used as both; an executive or operational task chair.

Furthermore, new modules of this series can also easily adapt to public spaces in hotels, hospitals, restaurants and schools. Offered with sled base, casters, glides or wooden leg options.

Halia is available for different work spaces and preferences. Height and back adjustments give it the opportunity to deliver individual comfort and special experience per each user.
